Hello Residents and Families of The Springs Living,

In this week's [Virtual Town Hall](#) on our YouTube channel, I speak about the differences in precautionary COVID-19 guidance between Independent Living, Assisted Living and Memory Care. Each has its unique differences which impacts how we “open up” our communities to the new normal.

But first, as I always, I provide our weekly COVID-19 update. I'm happy to report that for yet another week, we have no new cases of residents diagnosed with COVID-19. That is an excellent statistic that shows how the professionals who work in your Springs Living community stand out.

It also demonstrates that you and your families have been following the protocols, as difficult as they can be at times. Your sacrifices have been effective at keeping everyone in the community safe. While both Oregon and Montana have not yet opened up the opportunity for non-essential visitors at senior communities, we know that phase of each state's plan is coming. We must remain patient and diligent to hold the line against COVID-19.

Overall, we are seeing a lot of smiling faces as we begin to “reopen” within our communities. Also, my grandma's strawberries are blooming which tells me the world is still spinning, so enjoy that sun and warmth! Good times are ahead.

In next week's town hall, Director of Culinary Services Sam Currie will be talking about food and wellness as our dining options begin to open up. Send your questions for Sam to communications@thespringsliving.com.

Be well,

Fee Stubblefield
Founder & CEO
